

BARBIE MAHAJAN

SEEKING 2026/2027 CYBERSECURITY SOC ANALYST / GRC INTERNSHIP

+61 451 378 614 | barbiemahajan721@gmail.com | barbie-jan.github.io/portfolio

PROFILE

Bachelor of Cyber Security student (Deakin University) with 18 completed units spanning digital forensics, malware analysis, network security, network forensics, and ethical hacking, plus hands-on experience in a real multi-team capstone software project. Proven ability to investigate technical issues methodically, back every finding with evidence, and communicate results clearly to a team. Combines technical coursework with 1.5+ years of professional experience handling confidential records, triaging time-sensitive issues, and maintaining audit-ready documentation, seeking a placement where these strengths support a SOC, GRC, or broader cyber security team.

EDUCATION

Bachelor of Cyber Security

2023 – Present

Deakin University — 18 units completed across 7 trimesters

- **Specialised:** Computer Forensics & Investigations, Malware Analysis, Advanced Network Security, Advanced Network Analytics & Forensics, Network Forensics, Ethical Hacking, Cyber Security Analytics, Cryptography, Secure Coding
- **Capstone:** Team Project: Execution & Delivery, Team Project: Project Management & Practices
- **Foundational:** Computer Systems, Real World Practices for Cyber Security, Statistics & Data Analysis, Computer Networks & Communication, Data Structures & Algorithms, Professional Practice in IT, Object-Oriented Development

CAPSTONE PROJECT

Food Remedy API — Database Team Contributor

Trimester 2, 2026

Gopher Industries — Team Capstone Project

Real, multi-team production software project: a mobile app helping consumers assess dietary compatibility of supermarket products.

- Delivered 7 tickets end-to-end, each backed by a structured pull request and full written investigation reports with prioritised recommendations.
- Found and fixed a release-critical bug in the product-data cleaning pipeline that automated tests missed — verified directly against real committed data and confirmed via regression testing.
- Independently identified and flagged an unrestricted Firestore security rule outside ticket scope, and resolved two separate ticket-ID board collisions before they caused operational conflicts.
- Adapted professionally to a mid-trimester role change from the Backend Team to the Database Team, communicating proactively without disrupting delivery schedules.
- **Tools:** React Native (Expo), Firebase (Firestore & Auth), JavaScript, Python, Docker, Git / PR Workflow

PROFESSIONAL EXPERIENCE

Schedule Coordinator — Nurse 4 U

Jan 2026 – Present

- Triage competing, time-sensitive coverage requests under pressure — applying rapid prioritisation aligned with SOC alert queue operations.
- Maintain accurate, auditable scheduling records and confidential personal information in strict compliance with privacy standards.
- Identify anomalies and coverage gaps against expected operational patterns, documenting and resolving them before escalation.

Rostering Coordinator — Royal Freemasons Coppin Centre

Jun 2024 – Jan 2026

- Handled shift changes and short-notice absences calmly under pressure, maintaining precise, auditable records for every modification.
- Managed sensitive employee and scheduling data with strict confidentiality and discretion.
- Audited roster accuracy against organizational compliance standards, flagging discrepancies before escalation into compliance issues.

SKILLS

Security & Compliance: Digital Forensics & Investigation • Malware Analysis (Ghidra) • MITRE ATT&CK Framework • Security Misconfiguration Review • Privacy & Confidentiality • Compliance & Audit-Trail Documentation

Technical: Network Security • Automation (Python) • Network Forensics • Ethical Hacking / Penetration Testing • Git / PR Workflow & Code Review • Evidence-Based Investigation & Reporting

Operational & Coordination: Incident Triage Under Pressure • Staff Rostering & Scheduling • Shift Allocation & Coverage • Leave & Availability Management

Communication: Stakeholder Communication • Conflict Resolution • Clear Reporting & Escalation
